Four boys were drowned in the river opposite Cincinnati Sunday, by the upsetting of a skiff.

J. C. Bacon, of Madisonville, has been appointed deputy internal revenue collector, with headquarters at Henderson.

The Convention of Christian Workers at Bowling Green adjourned Saturday after a very interesting session of several days, which was largely attended.

The Supreme Court of New York has decided the electrical execution law to be constitutional and murderer Wm. Kemmler will die by the wire and button May 6.

The woods are already full of candidates for the Constitutional Convention and in some counties nominations have already been made, although the bill calling the convention has not yet become a law.

Maj. Gen. Geo. Crook, of the regular army, in command of the Division of the Missouri, died suddenly of heart disease at Chicago last Friday. Gen. Crook was 61 years old and was the most successful Indian fighter in the Army.

Senator Blair's hobby again boils up in the Senate, although it was defeated last week. He has modified the bill, reducing the appropriations, and introduced it again. It is about time somebody was applying the nuisance law to Blair and his bill.

Capt. Michael P. Bolan, a Covington policeman, was last week elected to succeed Capt. E. H. Taylor as Warden of the penitentiary, whose term had expired. Lack of harmony between Warden Taylor and the lessees induced the change. The position pays \$2,700 a year.

The floods are slowly subsiding in the lower Mississippi and it is thought that the three important breaks in the levees can shortly be closed by the engineers, who are hard at work. The floods are not over though, as the upper Ohio is on a rampage and still rising. This water must of course find its way to the Gulf.

The governor has ordered 25 members of the Harborsburg company, under command of Captain Gaither, and 15 of the Lexington company, under the command of Lieutenant Beckner Allen, to report for duty at Harlan C. H., to keep the peace between the warring factions during circuit court, which will be held by Judge Boyd.

The bill reducing state taxes five cents was vetoed by Governor Blacker, who sent a lengthy message to the Legislature on the subject. His reasons are much the same as he expressed two years ago when he vetoed a similar bill: He thinks the appropriations being made are so heavy that a deficit would occur should the revenues be decreased. The reduction should be tried for two years anyhow. The times are hard and the people would appreciate even a small decrease in their taxes. A little more economy in some branches of the Government would enable the cut to be made without causing any inconvenience. The Governor's veto message was made a special order for next Thursday.

The Owensboro Inquirer, Glasgow Times and other papers have recently contained a very pleasant allusion to "Young" John Foland, in which his nomination as county attorney of Christian county is spoken of as "equivalent to election." It would not be easy to find in the county a cleverer Republican than John, but the contract to be elected county attorney is the biggest he ever undertook. The Democrats now have seven out of eleven of the county offices in Christian county, and that of attorney is one of them. They have nominated a strong ticket and were never in better fighting trim than this year. All they need to insure the success of the whole ticket and thoroughly redeem the county is a little wholesome legislation to purify the ballot and insure a fair election.

## LEGISLATIVE MATTERS.

But little business was transacted in either House Saturday.

Owensboro has been authorized to levy a tax to pay her floating debt.

To change the line between Butler and Muhlenberg counties. Passed.

To prevent shipping of partridges to market out of McLean county. Passed.

A bill has passed prohibiting the use of whisky in Todd county on election days.

The House concurred in the Senate amendments to the bill amending the charter of Bethel College at Russellville.

Hon. Wm. Wharton, of Trigg, who had been absent a month on account of sickness, resumed his seat in the House yesterday.

On Saturday the House passed the Senate's bill, calling a Constitutional Convention, and it is now ready for the Governor's signature.

The Senate confirmed the nominations of S. C. Bull, N. J. Sawyer and W. S. Dehonay as Commissioners of the Feeble-Minded Institute.

The House has passed a bill to incorporate the Grand Lodge of the order of Adherents of the Grand Mogul, and to organize a mutual benefit society.

The Senate has passed the Peterman bill requiring publishers of school books to enter into an eight year contract with the State, stipulating that the prices charged for text books shall be those charged wholesale dealers.

The General Statutes Committee of the Senate, which has the Thorne Bill in hand is said to be about equally divided on the bill. Petitions continue to pour in from the tobacco districts against the passage of the bill.

Mr. Flannery introduced a bill to change the penalty for carrying concealed weapons. It proposes to abolish the imprisonment part of the penalty and to make the fine fifty to one hundred dollars instead of twenty-five to one hundred.

The Legislature has passed and the Governor has signed a bill abolishing the City Council of Covington. If the Democrats of Hopkinsville had been disposed to resort to extreme measures, similar action might have been taken for Hopkinsville when the Ward bill was passed.

The Committee on Internal Improvements, Military Affairs and Sinking Fund had the floor Friday and introduced a large number of local bills. A bill was passed abolishing temporarily the Sinking Fund, the Sinking Fund money to take the ordinary course to the State Treasury.

Mr. Blincher introduced a bill to redistrict the State into eleven Congressional districts. The act carries out the gerrymander exactly as proposed in the Times about two weeks ago, making one Republican district and ten Democratic. The bill was referred to the special committee on the redistricting of the State.

NEW BILLS FRIDAY.

Forty-six new bills were introduced Friday, most of them of a local nature. Following were some of the more important:

By Mr. Duvall, an act to compel railroads to pay full value for stock killed.

By Mr. Smith, an act providing that counties pay one-half for the maintenance of pauper idiots.

By Mr. Weil, an act providing for a registration of voters in McCracken county and another applying the Wallace law to city elections in Paducah.

By Mr. Garlar, an act to punish persons who defraud hotels and boarding houses, by fine and imprisonment.

By Mr. Tichenor, an act to tax dogs 50 cents each in Ohio county, the proceeds to pay for sheep killed by dogs.

Deafness Can't be Cured

by local applications, as they can not reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that we can not cure by taking Hall's Catarrh Cure. Send for circulars, free.

Representation in the Constitutional Convention will be based upon the membership of the lower House of the Legislature, each legislative district being entitled to the same number of members as it has representatives.

The convention will therefore have 100 members and Christian county will have but one, although her population is 40,000 or more. We are entitled to two members and ought to have them.

WHISKIES

Of the Old Kentucky style are steadily increasing in favor with those people who seek absolute purity combined with that fruity and mellow flavor to be found only in the genuine product of "Old Kentucky."

Havana's Nelson County Whiskey is and has been for years before the public and has well merited a reputation in its own State as it possesses all the elements of a fine whiskey.

## THE CRAFT.

The first number of the Cloverport Times, a spy and very creditable six-column paper, appeared last week, with Baker & Gregory proprietors.

The State Union, an organ of the Farmers' and Laborers' Union, has been started at Bowling Green by S. B. Erwin, President of the organization in Kentucky.

The Russellville Herald will be issued semi-weekly after April 13. Welcome to the ranks, brethren. You are about to enter a limited and very select class of Kentucky newspapers.

Oliver J. Cronwell and Harry L. Means, of Louisville, will shortly start a new daily paper at Paducah, having found some time ago to purchase one of the established dailies.

Thos. N. Black has bought the Earlinton Bee, whose editor recently took a sudden departure. We are glad to know that our handsome little neighbor is to continue, in spite of its misfortune.

Gutrie is proposing at an early day to give birth to a newspaper and set it afloat upon the great sea of journalism. It will be a stock company with Capt. Frank Duffy, a well known journalist at its helm.

Mr. Edward O. Leigh, of Paducah, is mentioned as the possible successor of Private Secretary Will R. Griffith, who will resign May 1st, to become clerk of the Railroad Commission.

Mr. Leigh is a gentleman of ability and integrity, and his appointment by the Governor would be a fitting recognition of one of its earliest and most faithful friends.—Owensboro Messenger.

It is reported that Mr. James R. Marrs, late postmaster at Danville and founder of the Kentucky Advocate, has purchased the Lancaster News. We tried to sell him the Interior Journal but he didn't care to invest, as much as we have in it, though after looking through the office he admitted that our price was even lower than he expected.—Standard Interior Journal.

The report is true. Mr. Marrs will change the name of the News to the Central Record and issue the first number early in April.

E. M. Thomas Manf. Co. N. Y.

"Your Vitnita, for indigestion, dyspepsia, disordered liver, colic, and bowel troubles, it is the best seller we have; those who use it recommend it to others." McElroy & Co., druggists, Clarksville, Tenn. Every family should keep Vitnita Liver Pills; they are mild and sure, small and sugar-coated; great favorites for biliousness, headache, and constipation. Book with testimonials from your neighbors free to callers. For sale only by Rogers & Elgin.

The current (April) number of Frank Leslie's Popular Monthly contains fully a dozen elaborately illustrated articles, any one of which is worth buying the magazine for. "The Senate and its Leaders" is discussed in bright, gossipy style by Frederick Daniel, and nearly a score of portraits and views accompany the text.

Wm. Hosoa Ballou describes the Tennessee Blue-Grass region and its thoroughbred horses, together with the historic homes of Presidents Polk and Andrew Jackson. The wonders of Edison's perfect photograph and graphophone are brilliantly set forth in Arthur V. Abbott's paper entitled "A Voice from the Past," with the best pictures that have ever been published in connection with this subject. An excellent account of the Union League Club of Chicago, with its palatial new home, is furnished by Lieutenant Bassett. Alfred H. Guernsey's series of historical papers on Frederick the Great is continued; Sophie Worthington gives picturesque "Notes on Nuremberg"; Andrew S. Fuller studies "The Domestic Life of Prehistoric Americans" in their pottery-ware; the celebration of the new Constitution of Japan is illustrated and described in an interesting letter; and the history of "The Umbrella" is as entertaining as it is reasonable. The short stories and poems of the number are by favorite magazine writers, including Lucy Hooper, Ella Wheeler Wilcox, Charles Henry Webb, Francis B. Curry, and others.

Conductor Wells and Engineer Allen, of freight train No. 64, were arrested Tuesday night charged with blocking the streets for more than five minutes. Their train was sidetracked and delayed four or five hours. The trial was set for yesterday afternoon.

Here it is, and it fills the bill much better than anything we could say: "It gives me the greatest pleasure to write you in regard to Chamberlain's Cough Remedy. During the past winter I have sold more of it than any other kind, and have yet to find any one but what was benefitted by taking it. I have never had any medical success in my store that gave such universal satisfaction." J. M. Kover, Druggist, Gaudin Springs, Kansas. 50 cent bottles for sale by Buckner Leavel.

The sixth and last Chautauqua lecture of the season will be given by Bishop Vincent on the evening of March 28th at the Opera House. Subject: "That Boy." Dr. Vincent is a Bishop in the Methodist Church, and Chancellor of the Chautauqua Assembly.

The date for the Fair has been definitely fixed for Oct. 15, and a joint Confederate and Federal reunion will be arranged for one day.

Hon. Henry Watterson has contracted to deliver his lecture "Money and Morals" in this city on April 10.

## CITY COURT NEWS.

Chas. Green, col., breach of the peace, fined \$5.

Jim McRae, col., drunk and disorderly, fined \$5 and costs.

Ed Maywood, a tramp, arrested on suspicion and ordered to leave town.

Frank Kelly, John Ryder and Tom Ryan, umbrella makers, arrested on suspicion of having committed a felony, were examined and discharged.

Jim Alksworth, Jr., and Jim Barker, two colored boys arrested and arraigned in Esq. Tinsley's court charged with breach of the peace, proved that they were only "sky-larking" and were discharged. The Alksworth boy was reported as fined in the last issue through a mistake in copying the police records.

Mr. James Lambert, of New Brunswick, Illinois, says: "I was badly afflicted with rheumatism in the hips and legs, when I bought a bottle of Chamberlain's Pain Balm. It cured me in three days. I am all right to-day and would insist on every one who is afflicted with rheumatism, neuralgia, or Chamberlain's Pain Balm and get well at once. For sale by Buckner Leavel."

CHRISTIAN REIS, whose name as a writer of charming stories has become a household word, contributes the complete novel to the April number of Lippincott's Magazine. It is entitled "A Cast for Fortune," and the scene is laid in Mexico, where the hero, a young American, has gone to build up his fallen fortunes. He meets with a series of adventures while contemplating the purchase of a silver mine, and at length is set upon and severely wounded. He falls into the hands of good Samaritans, however, in the shape of a wealthy Mexican gentleman and his lovely daughter, to whose hands he is turned over, and there he finds back to life and health. The charm of Mexican life and scenery is portrayed with a skillful and sympathetic pen, and the creation of the noble and beautiful character of Zariffa, the heroine, must add fresh luster to the fame of the author of "Morton House" and "After Many Days."

CHAMBERLAIN'S Eye and Skin Ointment.

A certain cure for Chronic Sore Eyes, Tetters, Salt Rheum, Scald Head, Old Chronic Sores, Fever Sores, Eczema, Itch, Psoriasis, Scabies, Sore Nipples and Piles. It is cooling and soothing. Hundreds of cases have been cured by it after all other treatment had failed. 25 and 50 cent boxes for sale by Buckner Leavel.

SCIENCE AND INDUSTRY.

It is proposed to attempt the distillation of fog by electrical discharges.

The largest quilt toothpick mill in the world is within a few miles of Paris.

There are about 600,000 barrels of cotton seed oil manufactured annually, two-thirds of which is consumed in manufacturing land.

About 2300 B. C., when Emperor Yung gave the order for the observation of the winter solstice, is thought to be the beginning of Chinese astronomy.

Dr. Kruss, a celebrated chemist of Munich, has successfully decomposed cobalt and nickel—two substances which have hitherto been considered as elementary.

One of Maine's interesting industries is at Oranville, where one concern makes twenty different kinds of fog and board rules and four different colors. The factory sends its rules all over the world.

A thermographic printing press, capable of turning off four hundred impressions an hour from hot type on wood, is a new French production. It is said to yield results equal to lithography.

About nine tenths of all the clay pipes manufactured in the United States are made in Brooklyn, N. Y., where three factories are located that turn out 15,000 gross annually. The clay comes from Woodbridge, N. J., and costs at the factory five dollars per ton.

Two German experimenters have discovered that there is a heat-center located in the brain. It is found at the front and upper part of the brain. When the heat-center is irritated in a rabbit, the temperature sometimes rises several degrees, and with wonderful quickness.

A process, called the Cooper process, of lining iron pipes with glass, is reported, which is said to have stood the severe test of having water passed through them at the boiling point and immediately followed by water at a temperature of thirty-three degrees, and without in any way cracking or damaging the glass. If the invention should prove equal to such changes of temperature in ordinary service without injury, it will be found exceedingly valuable.

Investigation of fire ruins show that porous terra cotta bricks and blocks best resist fire, water and frost, next to these in the order of fire-resisting qualities being the various grades of stone, some of them, and burned clay work. In the best building work now done, the iron part is encased in porous terra cotta, tile or brick work, in roof, floor and tile construction; the hollow tiles are faced with vitreous tile, slate or any good weather-proof brick, or with a single thickness of brick. Encased in fire-proof materials, iron and steel framework is claimed to give the best results.

In the Galician forests, electric power has been adopted for felling trees. In steam machinery for felling trees the trunk is sawed, but in this case it is drilled. When the wood is of a soft nature, the drill has a sweeping motion, and cuts into the trunk by means of cutting edges on its sides. The drill is rotated by an electric motor mounted on a carriage, which is brought up close to the tree and shackled to it. The electrical current is conveyed to the motor by insulated leads, brought through the forests from a generator placed in some convenient site.

The manufacture of what are termed veneered diamonds is a notable industry in Paris. The body of the gem is of quartz or crystal. After being cut into a proper shape it is put into a gylimo better which costs it with a liquid, the latter being made of diamonds which are too small to be cut, and of the clippings taken from diamonds during the process of shaping them. In this way all the small particles of diamonds that heretofore have been regarded as comparatively worthless can, by means of this ingenious process, be made of service to the jeweler.

## The O. V. Decision.

KENTUCKY COURT OF APPEALS, March 20, 1889.

Christina Co., Appellant, v. Appeal from the Christian County Circuit Court.

Opinion of the Court delivered by Judge Pryor:

A rehearing of this case on the petition of the appellant, and after a careful consideration of the views of counsel presented at the last hearing, we are still of the opinion that the judgment below was proper, some members of the Court being of the opinion that the direction to the County Judge in Sec. 2 of Art. 17, Gen. Stat., under the title of Courts, requiring the County Judge to associate with him the Justices of the county in the levy of tax and the issuing of bonds payable by the county, is not properly legislation on the subject of how the vote of a county may be cast upon such propositions—that neither the title nor the subject matter embraces such legislation. The one title controlling or regulating the action of the Courts, and the act under which it is held that this election or vote was illegal, being entitled "An act in relation to submitting questions of taxation to the vote of the people."

This last act applies as well to incorporated companies as to County Courts and Justices of the Peace, and one would scarcely look under the title of Courts to find legislation repealing the act of March 17, 1870. So under any aspect of the case the election was a nullity; and besides if the voters of the county want this road it is but little expense and trouble to order another election. Much better to do this than to establish a precedent by which the voter is placed under an influence that compels him to vote for a proposition that he does not favor, in order that he may succeed with his own favored enterprise.

Opinion adhered to and now filed as the judgment of the Court.

Landes & Clark, Hunter Wood, Arthur Carey, E. P. Campbell, Hughes & Hughes, Brown, Humphrey & Davis, for appellant.

Henry J. Stites, John Feland, Joe McCarroll, for appellee.

## Broke His Back.

It is feared that Mr. Richard Mills sustained injuries that will prove fatal by a fall out of a tree, from which he was trimming the upper branches. The tree from which he fell is a tall sycamore, growing on the farm of Mr. W. S. Young, near town. He was standing upon a large limb and cutting off another with his ax. His feet accidentally slipped, causing him to lose his balance, and precipitating him a distance of twenty or thirty feet to the ground. He fell lengthwise across a large log of wood, and it is gravely feared that his back is broken. Mr. Mills and his family have the sincere sympathy of the whole community. They are very poor people, and if the father and husband dies the wife and little ones will be left destitute.—Cadiz Telephone.

The last of the Chautauqua lectures will be delivered Friday night by Dr. J. H. Vincent, on the subject "That Boy." Dr. Vincent is a Bishop of the M. E. Church and his lecture will be a rare treat. It abounds in wit, humor and pathos, and is said to exceed the best efforts of Col. Ingersoll. Tickets now on sale at Galbreath's.

Ed Ritter has found his dogs advertised last week. They were ten miles northeast of town and were returned as a direct result of his two line local. The Kentuckian's columns are a sure shot for advertisers.

A committee of the neighbors were in the city yesterday to appraise the Mrs. Sybert farm near Newstead, sold under an order of the Court last year. It contains 500 acres.

Dr. J. R. Gardner died at his home near Lafayette Wednesday last, of consumption, aged 60 years. He was for a long time associated with Dr. M. W. Williams in the practice of dentistry at Lafayette. He leaves a family.

## CREAM OF NEWS.

## A Narrow Escape.

The second floor of Metcalfe's foundry, with five tons of castings on it, fell with a loud crash Wednesday, narrowly missing four workmen.

## Dropped Dead.

George H. Hughes, a son of Hon. Dan H. Hughes, of Morganfield, Ky., dropped dead of heart disease in a drug store in that town on the 20th inst. He was 27 years old and leaves a wife and two children. Deceased was a brother of Miss Willie Hughes, who recently took part in an entertainment in this city.

## A Two Per Cent. Raise.

Judge Winfree has been notified that the State Board of Equalization has added two per cent. to the valuation of property in Christian county as reported by the Assessor and equalized by the county Supervisors of taxes. The board will give audience to a committee limited to live, including the Assessor, on March 27 to 29, and hear them in behalf of the county. Such a committee should be sent to Frankfort to protest against this increase.

## Elder Lucas' Work.

Thirty-seven professions of faith are reported since Elder Lucas began his work at the Christian Church in this city. The services will continue through this week, and probably next. To-night the subject of his discourse will be "The Divinity of Jesus Christ." This is a subject that non-professors and skeptics should not fail to hear discussed by this eminent divine. It is not necessary to say that all who want seats should be early in their attendance, as the house is crowded to its utmost capacity every night. Subject this morning "The Devil."

## Fell From a Scaffold.

Mr. Levi Moore, who was working on the porch of Mr. Geo. E. Handley's residence on Virginia street, last Monday morning, fell through an opening in the scaffold, a distance of a little over five feet. It was reported on the streets that Mr. Moore had been killed by the fall. A representative of this paper visited the residence of his brother and found the injured man lying on his bed suffering from considerable pain, but not in anything like a dangerous condition. Mr. Moore does not know how he came to fall, but says it was caused by a sudden rushing of blood to his head. When he fell the back of his head struck a nut bolt that was lying on the porch floor, which made a bad wound. He also received an ugly cut above his right eye. He will probably be able to resume work in a few days.

## New Free Delivery Law.

Last year's business at the Hopkinsville postoffice amounted to \$85,000. Under the present law regulating the free delivery of mails, had there been \$8,000 worth of stamps and postal cards sold we would be entitled to free delivery if our population had reached 5,000 by the last census. According to the census of 1880 Hopkinsville only had 4,229 population. A census taken by authority of the Council in 1885 gave us 5,780. It would probably prove an impossibility to get a more unsatisfactory count of noses than this last named census. The contract was let out to the lowest bidder and he received the enormous sum of \$20 for his services. We do not remember the length of time taken up in this laborious undertaking, but it was three weeks, or thereabouts. It was simply \$20 thrown away. No one can correctly take the census of the city in less than two months. When the next U. S. census is taken, which will be done this year, we have no doubt that Hopkinsville's population will exceed 7,000. This would give us the free delivery, as we will only be required under the new law pending in Congress to sell \$7,000 worth of stamps. The new bill, it is believed by persons who are well posted at the National Capitol, will become a law.

## The Decision at Last.

As semi-authoritatively foretold by the Kentuckian some weeks ago, there has been a second decision by the Court of Appeals on the Ohio Valley Railroad case from this county, reaffirming Judge Grace's decision and killing the proposition voted on. The facts are too familiar to our readers to need discussion at this time. Both the O. V. and the C. & T. roads were voted in the sum of \$200,000 each, on the same day, Nov. 10, 1888, and it transpires that the law does not permit two propositions of the kind to be voted on the same day and consequently both are nullified by the decision. The case having been decided the same way once before, the present decision is in no sense a surprise. The case was re-opened for oral argument Jan. 15, and the decision was not rendered until more than two months had elapsed. This delay has greatly irritated the people of Hopkinsville, who are impatient to take other steps looking to the building of another railroad. Our moneyed men are getting stirred up and another road is going to be built. This much is certain. It is said the O. V., which has paid the expenses of the late appeal, will have another proposition at once before our people. If no satisfactory offer comes from that road, then the people will build their own road to some point on the C. & T. They have tried twice and got left, but the third time auster and will be the charm.

Hood's Sarsaparilla has the largest sale of any medicine before the public. Any honest druggist will confirm this statement.

Purify your blood with Dr. P. T. Rogers' Ideal Alternative, sanctioned by physicians of Hopkinsville. For sale only by Rogers & Elgin.

Last Sunday was a beautiful day, and in the afternoon the streets were full of people enjoying a walk. The cemetery had its usual number of visitors on such days.

The Commercial Club will meet to-night at the rooms of Mercer & Mercer, on Court street, for the transaction of important business. A full attendance is desired.

Notices of application for licenses to sell liquor at retail have been quite numerous for several weeks past, as nearly all of the licenses of the twenty-one dealers expire in April.

The pavement on the south side of Seventh street, between Main and Virginia, in front of Steel's blacksmith shop, is in a miserable condition, but we presume it will receive the early attention of the authorities.

The Directory of the Christian County Fair Company has been increased to nine members and C. W. Ware, of Trenton, and E. E. Wash, of Wallonia added to the original seven. Mr. W. T. Hadford is President.

Be sure to look out for further announcements of Tank Kee. His entertaining course of lectures and unsurpassed collection of Chinese curiosities, consisting of embroideries, paintings, costumes, idols, etc., valued at over \$10,000, will be here April 4th.

The curtain will not rise at the Chautauqua lecture Friday night until 8:30 o'clock and services will begin at the Christian church that evening promptly at 7. This arrangement has been made to keep the meeting and lecture from conflicting with each other.

After all that has been said and written about the fruit being killed, the few days of spring weather we enjoyed the latter part of last week developed the fact that should the weather be favorable from now on, we will have a pretty fair crop of fruit of all kinds this year. Wheat is reported to be looking first rate.

The Farmers' and Laborers' Union now has something like fifty sub-unions in Christian county. The county business agent of the union has established an office in this county, where he can be found in the future. The next county union will meet in this city April 25 and 26 and each sub-union will send three delegates.

Some how, for several years, just about the convening of the spring and fall terms of the Christian Circuit Court, a murder has been committed. The term of the court which closes with this week has passed off without this, and now that "the record has been broken," it is to be hoped that it will remain so for years to come.

A very old woman in a destitute condition, accompanied by two small grand children, got off the train here last Saturday evening and applied for aid to get to some point in Texas. Oliver H. Goley took her in charge and provided for her until Sunday afternoon. She was furnished a ticket as far as Clarksville by Judge Winfree.

Judge Grace rendered a decision Saturday, reversing a former decision, which is of much interest to the saloon men. He holds that the saloon keeper is liable under his license for the actions of his clerks and subordinates who violate the law by selling liquor to minors. The fine is \$50 in each case, not enough to appeal, and there are a large number of such cases on the docket.

We have heard of three weddings which are to take place in the near future, but refrain from giving the names of the parties, as we might be considered a little officious. We will say that one of the prospective bridegrooms is remodeling his house, another never has been satisfied with a negative, while the third has given out that he is one of six heirs to a fortune of \$2,000,000 in England.

The pond just outside the city limits, on North Main street, is now much larger than it was when first mentioned in this paper, three weeks ago. Two or three acres are under water and will probably remain so until drained. It does not seem to be a "wet weather" pond, but is no doubt formed by a stream which has recently broke through the earth, and after the basin runs off through the street gutter to the river. The health of the people in the vicinity of the pond will be greatly endangered if the matter is not attended to soon. The city or county should not delay draining off the water right away. The expense would not amount to much. Fifteen or twenty men can do the work in a few hours.

## CIRCUIT COURT.

Conclusion of Commonwealth Cases, Indictments Found, Etc.

Zach Ryan, charged with trespass, was fined \$10.

Marion West, suffering gaming, fined \$10 and costs, on a plea of guilty. Same, two cases of gaming, fined \$10 in each case.

Audrey Jones, gaming, fined \$10.

Also Willis, gaming, fined \$10.

The following cases were looked into by the grand jury and dismissed: Elijah Ricketts, manslaughter; Thos. Martin, mayhem; Charles Green, petit larceny; Spencer Leavelle, petit larceny; John Henry Buckner, house-breaking; Walter Dade, trespass.

The case of Garrett Munford, col. charged with murder, was called Friday and continued until the 13th day of the September term.

## INDICTMENTS FOUND.

In addition to the batch of 15 indictments already published, the grand jury returned 101 more Saturday, after which they adjourned. They are as follows:

Retailing, 33; selling liquor to minors, 21; carrying concealed deadly weapons, 9; giving liquor to minor, 2; affray, 1; suffering minor to play on pool table, 2; fornication, 2; suffering gaming, 4; gaming, 2; violating Sabbath, 5; disorderly house, 1; malicious shooting, 2; unlawful shooting, 2; obscene publication, 1; setting up gaming machine, 2. This makes a total finding of 116 indictments at this sitting. The balance of this term will be devoted to the trial of civil and equity cases.

## The Spring Medicine.

The popularity which Hood's Sarsaparilla has gained as a spring medicine is wonderful. It possesses just those elements of health-giving, blood-purifying and appetite-restoring which everybody seems to need at this season. Do not continue in a dull, tired, unsatisfactory condition when you may be so much benefited by Hood's Sarsaparilla. It purifies the blood and makes the weak strong.

## Nine Convicts.

The following is a complete list of the convicts to be sent to Frankfort this term:

Rezin Knight, male stealing, 2 yrs. Upshaw O'Brien, grand larceny, 4 " Tom Terrill, " " 3 " Geo. Buckner, " " 3 " Jim Slower, " " 2 " Jim Barker, " " 1 " Tom Smith, petit " 1 " Parvey Long, " " 1 " Wilcox McKnight, manslaughter, 12 " All are colored excepting Knight.

Long, Winfree & Kelly, the local agents of the Orient Insurance Company, carried a risk on the store and contents of Louis P. Payne, who was damaged by the fire of the 10th inst. The fire was on Monday morning and on Tuesday the adjuster of the company fixed Mr. Payne's loss at \$655, which amount was promptly paid. Pretty quick work.

King Arthur, the fine 4-year-old stallion recently purchased of Gou. Hardin, of upper Kentucky, arrived last Saturday night. By an error, King Arthur was shipped to a party in Cairo, Ill., while the Cairo man's horse was sent to Hopkinsville. The error was promptly corrected when discovered, and King Arthur is now at the stables of the Messrs. Withers on west Seventh street. He is a beautiful animal and horse men are invited to call and look at him.

It will be remembered that a negro named Gardner had Sheriff West arrested on the day of the city election last December on a charge of trying to buy votes. The Grand Jury made a thorough investigation of the matter and declined to find an indictment, as there was nothing in the case. The negro would have been indicted for perjury but for the magnanimity of Mr. West, who declined to appear against him, and advised against prosecuting him, knowing that Gardner was merely the tool of unscrupulous white men and that the whole thing was gotten up for political effect.

Among the indictments found by the grand jury was one out of the usual order. The saloon firm of C. W. Driver & Co. some time ago had printed advertising cards upon the back of which was a poem in which no especial attention was paid to nice little questions of propriety. The cards were circulated about the city until two of them were discovered in the possession of a pupil of the public schools, in the classroom, just before the grand jury met. The grand jury made a searching investigation and returned an indictment against C. W. Driver & Co. and A. S. Gentry, the publication having been so much at the latter's office.
